# Czech Republic and the City of Třebíč

## The Czech Republic

The Czech Republic has been a member of the European Union since 2004, which increases its credibility as a business partner. It is a country with a stable economic environment, access to the EU market and Eastern Europe. The level of service provision, educational traditions and infrastructure are on par with those of Western European countries.

## The City of Třebíč

The City of Třebíč is located almost in the center of the Czech Republic and is an important industrial, commercial, and tourist center. Due to its proximity to the Dukovany Nuclear Power Plant, which is situated 30 km from Třebíč, the city is a natural hub of the nuclear region.

Třebíč has nearly 35,000 inhabitants, with hundreds of people commuting to the city daily for work and study. Every year, approximately 150,000 tourists from around the world visit Třebíč and its UNESCO World Heritage monuments. Thanks to excellent public amenities, such as primary and nursery schools, playgrounds, parks,

as well as a wide range of cultural and leisure activities and almost zero crime, Třebíč is an ideal place to live for people of all age groups.

Třebíč is a 15-minute drive from the D1 highway connecting Prague and Brno. The city is crossed by first- and second-class roads, which connect to international road networks. The nearest international airports are in Brno (70 km), Vienna (130 km) and Prague (160 km). Třebíč is also served by the Brno–Jihlava railway line, which connects to international corridors and is used for both passenger and freight transport.

# Geographical Location of the City

Třebíč is situated on both banks of the Jihlava River, which forms the natural axis of the city and the entire region. It is surrounded by the wooded landscape typical of the Bohemian-Moravian Highlands. The region is one of the areas with the cleanest environment, making it not only ideal for recreation and living but also for successful business ventures.

Within the city of Třebíč, green spaces are represented in the form of city parks – such as Mácha's Gardens in the city center, the park at Polanka, Tyrš's Gardens on the southern edge of the center, Masaryk's Gardens (Hrádek) in the north, the castle park, Lorenz's Gardens and Libušino Valley. The Týnské Valley, with its cascade of ponds, extends all the way to the city center.

## WHY DO BUSINESS IN TŘEBÍČ?

- The center of the region with ample land and commercial spaces
- Ready industrial zones
- Energetically self-sufficient city
- High-quality business environment
- Region with low operating costs
- Educated, skilled, and flexible workforce
- Local government ready to cooperate
- Support from the District Chamber of Commerce Třebíč
- Sought-after tourist center
- Excellent public amenities ensuring high quality of life

**Welcome  
to Třebíč**

# Development Areas

## Development Areas for Business and Housing

The city of Třebíč is constantly looking for opportunities and possibilities for development. It issues a zoning plan, which serves as a conceptual plan for land use development and works with the areas it owns. It prepares land for the construction of family homes and apartment buildings, areas for manufacturing and storage, as well as spaces for commercial use. Other land within the city limits is owned by private individuals.

### What is a Zoning Plan?

A zoning plan defines the basic concept of land development and determines its future use. It specifies where and what can be built and where it is not possible to do so. It does not mandate the construction of buildings but legally either allows or prohibits this possibility.

# Development Areas

## NAME OF LOCATION

- B1 Hájek II. – Residential area with family houses
- B2 Hájek III. – Residential area with apartment buildings
- B3 Hájek IV. – Residential area with family houses
- B4 Residential Area Na Kopcích III. – Residential area with apartment and family houses

- V3 Hrotovická Industrial Zone – Manufacturing and storage areas – light industry
- K1 Commercial Public Amenities
- K2 Commercial Public Amenities
- K3 Commercial Public Amenities
- K4 Commercial Public Amenities

# Welcome to Třebíč

# Transportation

The road network in the Czech Republic is composed of first, second and third-class roads.

Highways are the highest category of road transport routes in the Czech Republic.

The total length of operated highway sections is 1,388.2 km, with hundreds of kilometers currently under construction or planned.

Highways have been toll-based since 1995 and the highway vignette can be purchased at [www.edalnice.cz](http://www.edalnice.cz).

# Třebíč Bypass

## Třebíč Bypass

Construction is planned to begin in 2026, with completion expected in 2029, coinciding with the planned construction of the fifth and sixth blocks of the Dukovany Nuclear Power Plant. Thanks to the Bypass, travel within the city will be more convenient for the residents of Třebíč as well as for transit traffic that only passes through the city.

### WHAT WILL HAPPEN AFTER THE BYPASS IS BUILT?

1. Traffic within the city will significantly decrease.
2. The speed and comfort of public transportation will improve.
3. The streets of the current main route will be better utilized for the residents.
4. Street repairs in the city will become more manageable (road closures will be easier to bypass).

[www.obchvat.trebic.cz](http://www.obchvat.trebic.cz)

# Traveling around Třebíč

## CITY BUS TRANSPORT (MAD)

The MAD (Municipal Public Transport) in Třebíč operates from 4:15 AM to 11:15 PM on ten lines – three main lines, six supplementary lines, and one school line. The main transport hub is Karlovo Square, where nine lines stop. City bus transportation in Třebíč is provided by 25 buses, including 15 diesel-powered buses and 10 electric-powered buses. These buses travel more than 3,000 km daily.

## PARKING

You can park your car in parking lots scattered throughout the city.

It is convenient to use the P+R (Park and Ride) parking lot at the transfer terminal near the train station or the catchment parking lot near the Hrotovická industrial zone.

## CYCLING TRANSPORT

### RIDING A BIKE

Cycling is a popular mode of transport. There are 90 shared bikes available (including 10 electric bikes). The first fifteen minutes of bike use are subsidized by the city and are free for registered users in the app [www.nextbikeczech.com](http://www.nextbikeczech.com).

Using the electric bike is charged from the beginning of use. New cycling measures ensure greater safety and better traffic flow around the city. You can use the city's cycling circuit, which connects interesting spots in Třebíč ([www.trebicnakole.cz](http://www.trebicnakole.cz)).

You will find information about shared bikes at: [www.nextbikeczech.com](http://www.nextbikeczech.com)

# Important Institutions

# Health and Social Services

Třebíč Hospital is a comprehensive healthcare center that provides specialized and high-quality medical care for people of all ages. The founder is the Vysočina Region. Both inpatient and outpatient departments offer a high standard of services. This is also supported by the ongoing modernization of the campus and medical equipment. The city has two outpatient clinics where the offices of general practitioners and specialists, including dentists, are concentrated. Many other medical offices are distributed throughout the city.

## Health Insurance Companies

The following health insurance companies are currently operating in the Czech Republic:

- » General Health Insurance Company of the Czech Republic (VZP)
- » Military Health Insurance Company of the Czech Republic (VoZP)
- » Czech Industrial Health Insurance Company (ČPZP)
- » Health Insurance Company of the Ministry of the Interior of the Czech Republic (ZPMV)
- » Sectoral Health Insurance Company for Employees of Banks, Insurance Companies, and Construction (OZP)
- » Employee Health Insurance Company Škoda (ZPŠ)
- » Revírní Bratrská Pokladna, Health Insurance Company (RBP)

Health insurance companies are independent legal entities tasked with managing public health insurance. This very extensive activity primarily includes, on one hand, the collection of premiums from insurance payers, and on the other hand, the reimbursement of health services to healthcare providers.

# Welcome to Třebíč

# Schools and Education

The education system in Třebíč ensures comprehensive education from kindergarten to secondary schools. The city also has a corporate kindergarten offering English language instruction based on the proven Wattsenglish method, kindergartens and primary schools with specially focused classes, secondary schools, and language schools that also offer Czech language lessons for foreigners. Světýlko Kindergarten and Světlo Primary School are institutions offering education with Christian values. There are 13 institutions for preschool children in Třebíč. After that, children can choose from 8 primary schools, including one for children with special educational needs. After-school leisure activities are mainly provided by the Třebíč School of Art and the House of Children and Youth. The next level of education, with a wide range of fields, is provided by 7 secondary schools and vocational schools. Among them are 2 "gymnasiums" (secondary grammar schools) - both offering an eight-year gymnasium program.

**The Třebíč Gymnasium** was founded by the city of Třebíč in 1871 as one of the first Czech gymnasiums in the country. In 1889, the city built a school building for the gymnasium, where classes are still held today.

**The Catholic Gymnasium Třebíč** is a general church gymnasium offering both four-year and eight-year education programs. It collaborates with Mensa Czech Republic and emphasizes the teaching of foreign languages and computer literacy.

**The Bráfova Academy Třebíč, Secondary School and Language School with the right to administer state language exams** is one of the largest secondary schools in the Třebíč region. It prepares students at a high level for fields such as business, gastronomy, tourism, and related services.

**The Třebíč Secondary Industrial School**, with a 70-year tradition, currently has 1,328 students and offers studies in fields such as energy, engineering, mechanical electronics, and more. All educational activities are linked with partner companies in the region.

**The Třebíč Secondary School of Construction** offers secondary education in the field of construction in the form of four-year study programs and three-year vocational programs.

**The Higher Vocational School and Secondary Veterinary, Agricultural, and Medical School Třebíč** was founded in 2004 by merging the medical and agricultural schools. The school offers 4 fields of education with a matriculation exam and 2 higher vocational education programs - fields of study completed with a diploma.

**The Academy of Law, Pedagogy, and Business, Ltd.** offers two to four years of education completed with a matriculation exam in various specializations, as well as a two-year pedagogy program for teaching assistants, concluded with a final exam.

# Leisure Activities and Sports

Sport has a rich history in Třebíč. The development of sports activities and the establishment of new ones is supported by the city, local clubs and associations and is made possible thanks to numerous sports facilities in Třebíč. In addition to traditional sports, martial arts such as taekwondo, aikido, and judo, among others, are also well-represented.

## — HOCKEY

Hockey has a long tradition in Třebíč. The hockey club Horácká Slavia was founded in 1928. Former members of the club have been and continue to be prominent players and coaches, such as Vladimír Bouzek or two-time Stanley Cup winner Patrik Eliáš.

[www.hstrebic.cz](http://www.hstrebic.cz)

## — FOOTBALL

Horácký Football Club Třebíč and the Football School Třebíč are clubs that operate in Třebíč, focusing on the development of young football players up to adults. Třebíč has two football fields: the Horácký football stadium and the football stadium in Borovina.

[www.hfktrebic.cz](http://www.hfktrebic.cz)

[www.fstrebic.cz](http://www.fstrebic.cz)

## — ATHLETICS

The history of the TJ Spartak Třebíč athletics club is tied to the first athletic competitions organized in Třebíč in 1919 by the student sports club Achilles. Czechoslovak representatives such as the Strniště brothers and Alois Krul started here. Among the current athletes, there is, for example, the European Championship gold medalist Petr Svoboda and the junior world champion in decathlon Jiří Sýkora.

[www.atletikatrebic.cz](http://www.atletikatrebic.cz)

## — BASEBALL

The Czech-Moravian Baseball League has been the second-highest men's competition in the Czech Republic since 2003. Currently, the Třebíč men's team, Nuclears, plays in this league. The Na Hvězdě stadium is home to the Třebíč baseball players.

[www.nuclears.cz](http://www.nuclears.cz)

## SPORT FACILITIES

Třebíč offers a wide range of sports and recreational facilities for both locals and visitors, including venues for bowling, ten-pin bowling, ice skating, martial arts, fitness, pétanque, swimming and bathing, as well as tennis and squash. The TJ Spartak athletics stadium is used for training and hosting athletic competitions. Baseball players make use of the Na Hvězdě sports complex. The Zámiš-Bažantnice sports circuit is perfect for walking, running, cycling or inline skating.

## SWIMMING POOLS AND SWIMMING

The Laguna pool and water park operates year-round. The complex also includes a sauna and massage services. The outdoor swimming pool at Polanka offers both sports and relaxation opportunities during the summer days.

### — TOURISM AND CYCLING TOURISM

**Lookout Tower on Pekelný Hill:** Offering panoramic views of the surrounding area.

**Cycling Path Jihlava - Třebíč - Raabs:**  
A scenic route for cycling enthusiasts.

**VVV Path:** Connecting the city tower, the water reservoir at Kostelíček and the Windmill.

**Hrádek - View Circles:** A viewpoint offering impressive scenic views.

**Educational Trails:** Including Hrádek, Geopark and a dendrological trail in Týnské Valley, offering educational experiences in nature.

# Where to Go for Culture?

## CULTURE IN TŘEBÍČ

Třebíč is a city with a rich cultural tradition and a diverse range of offerings for lovers of history, art and music. Due to its rich Jewish history and monuments listed on the UNESCO World Heritage list, such as the Jewish Quarter, the Jewish Cemetery and the Basilica of St. Procopius, Třebíč has become a cultural center in the Vysočina region. The city regularly hosts various cultural events, including concerts, theater performances and exhibitions. Theater troupes from all over the Czech Republic perform at the Pasáž Theater and the National House.

## FESTIVALS

Among the most well-known is the multi-genre festival Zámostí, which takes place annually at the beginning of June. Another popular event is the Třebíč Cultural Summer, when the city comes alive with concerts, theater performances and other outdoor cultural programs. The Male Chajim festival is specifically dedicated to Jewish culture. August is reserved for the historical city celebrations called the "Slavnosti tří kápí" (Festivals of the Three Capes). In winter, thousands of people flock to the city to enjoy the atmosphere of Advent in Třebíč.

## FUN WITH EDUCATION

Třebíč also offers a wide range of options for entertainment and active relaxation. For families with children, the ideal visit is to the Ecotechnical Center Alternátor, where both children and adults can try various interactive exhibits focused on science and technology. The Třebíč Planetarium and Observatory, the fun center Labyrint, and the Mozkoherna (Brain Gym) are also popular attractions.

## MUSEUMS, GALLERIES, AND EXHIBITIONS

The Třebíč Castle is home to the Vysočina Museum of Třebíč. Interactive modern exhibits present the history of the castle, Třebíč and the region. The Franta Gallery in the National House displays works by the local and world-renowned painter František Mertl. In the Jewish Quarter, you will find the "Children of Antonín Kalina" exhibition, which honors another local figure who saved over 900 Jewish children in a concentration camp. A prominent landmark of Třebíč is the Windmill. Inside, there is an exhibition dedicated to the grinding of tanbark.

# Accommodation and Dining Services

Visit  
Třebíč

## Where to Eat and Drink?

Třebíč offers a wide range of options for dining and drinking. You can visit local restaurants that serve traditional Czech cuisine, as well as modern dishes with international elements, including Asian specialties or Italian pizza. Both lovers of classic meals and those looking for new tastes and experiences will find something to enjoy.

You can then refresh yourself at one of the many stylish cafés, traditional pubs, cozy wine bars or in taverns with the atmosphere of the old town.

## Where to Stay?

Třebíč offers a wide range of accommodation options to suit the needs of every visitor. The city has hotels for more demanding guests, pleasant guesthouses with a family atmosphere, comfortable apartments for longer stays, as well as budget-friendly tourist hostels and a quiet campsite for nature lovers. Everyone can choose according to their preferences and needs. For a complete overview of accommodation options and more information, visit [visittrebic.eu](http://visittrebic.eu).

# Shopping Centres and Shops

In addition to traditional stores in the city center, Třebíč also offers several larger shopping centers and supermarkets that meet the needs of a wider range of customers. Among the largest is the Stop Shop shopping center, which houses not only fashion and electronics stores but also fast food restaurants. Overall, Třebíč offers a diverse range of shops and services that satisfy both local residents and tourists. A popular destination for shoppers is Charles Square, one of the largest squares in the Czech Republic, where you can find numerous specialty stores, cafés, and restaurants. Local craftsmen and farmers offer their products in brick-and-mortar shops.

# Waste Management

The collection and disposal of municipal waste from residents is provided by the Association of Municipalities for Municipal Services through its subsidiary company ESKO-T s.r.o.

Municipal waste is deposited at the waste landfill at Petrůvky, which is owned by the association of municipalities, of which the city of Třebíč is a member. Similarly, there is a sorting line, 3 recycling yards, and a Center for Second Chance Items (RE-USE center).

In the city area, approximately 1,025 collection bins for sorted waste are distributed. The primary waste categories being separated are packaging materials, glass, plastic, paper, metal and biodegradable waste. These containers are

placed at around 200 container stations. At selected locations, it is also possible to dispose of electronic waste and textiles.

In Třebíč, instead of mobile waste collection, we have 3 collection yards open for citizens and businesses to dispose of hazardous waste, bulky waste, clothing, metal and garden waste.

Large containers for biodegradable municipal waste are placed in areas with family houses and in local parts from approximately March to the end of November. There are a total of 27 large containers for biodegradable waste. Citizens had the opportunity to obtain a compost bin for home composting from the city administration.

## RECYCLING YARDS

### **RY Třebíč – Borovina**

Western edge of the city, in close proximity to the road leading to Říčov and the district of Poušov.

### **RY Třebíč – Hrotovická**

Hrotovická St. 177, southeastern edge of the city – next to the former technical services.

### **RY Třebíč – Na Klinkách**

Na Klinkách, northern edge of the city.

# Safety and Crisis Management

## Citizen Safety is ensured by the Integrated Rescue System (IZS)

The Integrated Rescue System (IZS) is an effective system of links, cooperation rules, and coordination between rescue and security forces, government bodies, local authorities and individuals or legal entities. It is designed for joint execution of rescue and liquidation tasks and preparation for major emergencies.

### MAIN COMPONENTS OF THE INTEGRATED RESCUE SYSTEM:

- 1) Fire Rescue Service of the Czech Republic
- 2) Fire Protection Units included in the regional fire coverage
- 3) Emergency Medical Service
- 4) Police of the Czech Republic

## Municipal Police of Třebíč

The Municipal Police ensures local public order matters.

The city of Třebíč is continuously monitored by the city's surveillance camera system with recording.

Since 1999, the Municipal Police of Třebíč has been implementing the project of "City Surveillance Camera System" (MKDS) as part of its crime prevention program.

Currently, MKDS Třebíč operates 73 cameras in various locations and intersections. Three operators work at three stations in continuous operation.

## Crisis Management

In the event of a threat, citizens are notified via sirens,

announcements on the radio, television or on the city's website.

Every first Wednesday of the month, at exactly noon, an acoustic test of the sirens is conducted.

# Labor Market and Key Employers

## EMPLOYERS IN THE TŘEBÍČ REGION

The largest employers in the region include Třebíč Hospital, Dukovany Nuclear Power Plant, Wera Werk, Cemex Concrete Plant, MANN + HUMMEL (CZ), TEDOM, 2JCP Třebíč, Fraenkische CZ, and Huhtamaki.

As of December 31, 2023, a total of 13,402 business entities operating under the Trade Licensing Act were registered in the administrative area of the Třebíč municipality with extended powers (ORP). Of these, 6,818 business entities were registered in the city of Třebíč, including 5,486 individuals (natural persons) and 1,332 legal entities (juridical persons).

The largest proportion of businesses in the city consists of so-called micro-enterprises (i.e., those with up to 10 employees). The second largest group is composed of medium-sized enterprises (i.e., those with up to 50 employees).

# District Chamber of Commerce Třebíč

Creates opportunities for establishing and expanding business contacts, as well as for mutual sharing and meetings. It maps and enhances the business environment.

#### PROVIDES A WIDE RANGE OF SERVICES:

- Information service and consultancy
- Seminars on current topics
- Legislative feedback
- Projects related to education and the labor market
- Organizing events – conferences, social and sports events

Communicates with members on a daily basis. Works closely with companies in the region, schools, authorities, the Vysočina Region, partner cities and the network of Chambers of Commerce in the Czech Republic.

For more information, visit:  
[www.ohktrebic.cz](http://www.ohktrebic.cz)

# Association Energetic Třebíčsko

ENERGETICKÉ  
TŘEBÍČSKO

The Association "Energetic Třebíčsko" is a significant organization in the Třebíč region, focusing on the support and development of the energy sector. It was founded in 2013 by the District Chamber of Commerce Třebíč, the City of Třebíč, the Třebíč Secondary Industrial School, and the municipalities of Dukovany and Rouchovany.

This association was established with the aim of connecting various entities in the field of energy, including public institutions, industrial companies, and research organizations, creating a platform for collaboration and knowledge exchange. One of its main goals is to support sustainable energy and the development of the energy region.

The Association actively participates in various projects and initiatives focused on modernizing energy infrastructure. It organizes conferences, seminars and roundtables for professionals, connects the energy industry with local governments, collaborates with local communities and focuses on raising awareness and education in the field of nuclear energy. In this way, the association contributes to the economic and technological development of the Třebíč region and strengthens its position as a key energy center in the Czech Republic.
